

Discover Short Breaks

Welcome! The Atherton Tablelands are a destination to savour, and we'd like to give you a taste of what is on offer in this amazing destination. Stunning countryside, spectacular waterfalls and serene lakes, World Heritage wilderness, world class attractions and unique niche experiences combine to present a holiday destination you'll fall in love with again and again. Take your taste buds on a tour to delight any gourmet, and challenge yourself to experience something new and different on water, land or even in the air - there's so much to see and do whatever your age!

Waterfall Circuit

The most photographed waterfall in Australia, Millaa Millaa Falls, is a fairytale drop surrounded by lush rainforest off the Palmerston Highway.

Continue on the Southern waterfalls circuit to Zillie, Ellinjaa and Mungalli Falls, then swing past Souita and Pepina Falls and photograph Australia's widest waterfall, Millstream Falls.

Driving north, there's the ever popular Malanda Falls and at Kuranda, the majestic Barron Falls which is terrific year round but at its best during the wet season when the roaring waters cascade over the chasm of the Barron Gorge sending spray hundreds of meters into the air.

Food & Wine Trails

The Tablelands are the 'foodbowl of the tropics' and their tastes and sensations will linger in your memory. This is the only place in Australia which grows all the ingredients for a perfect 'cuppa' - sugar, milk, tea and coffee are all produced in the red soils of the region.

Buy seasonal produce such as peanuts, potatoes, avocados, macadamias and mangos from the roadside stalls, and enjoy the best cheeses and chocolates, smallgoods and icecream, candy and honey all made by the region's primary producers.

Try the award winning fruit wines, spirits and liqueurs from cellar doors, and take home freshly roasted coffee and tea from Australia's largest tea estate.

Natural Attractions

Nature and its dramatic beauty takes centre stage on the World Heritage-listed Tablelands. Walk the circuits of the beautiful volcanic crater lakes of Barrine and Eacham and picnic on the shores of Lake Tinaroo.

From bushlands to rainforest, the region supports a range of habitats and you'll easily discover native wildlife such as rare lemuroid possums, platypus and tree kangaroos.

Did we mention this is a world renowned birdwatcher's paradise with over 327 species to count? Get up close to nature in all its glory at unique natural phenomena such as Cobbold Gorge and Undara Lava Tubes.

Right in your own backyard you'll discover a place of magnificence and relaxed beauty which will awaken your senses and renew your spirit. The Atherton Tablelands is just a short drive away from the everyday, and right now is a perfect time to check out the short breaks, packed full of value, fun and freedom.
