

Sunshine Coast

Come Rain or Shine

The Sunshine Coast is simply a natural paradise with over 300 days of sunshine per year. This makes the region the perfect beach, bush and hinterland holiday destination. To keep the coast as green as possible for your visit we do on occasion look to the heavens for natures watering can. But on the days the local flora gets watered don't despair as whether you like sliding around the wet corners at the Big Kart Track or keeping your feet dry at UnderWater World we have some amazing places to go and things to do to make your holiday with us even better Come Rain or Shine.

This attraction or activity has some undercover areas but be prepared, you may still get wet.

This attraction is not undercover so you will get wet.
